

Employees have a realistic way to try on glasses digitally:

Use the Glasses.com app to create a 3D model of your face

## In-network now means online

We're changing the way benefits work – because online purchases of prescription glasses are projected to increase by 15% over the next 10 years.<sup>1</sup> And now that Glasses.com is in our network, members can go online to buy glasses anytime, from anywhere. Plus, they can use their in-network benefits.

### It's easy:

- Members can find a pair they love from thousands of name-brand frames
- Snap and send a picture of the prescription – or have Glasses.com call the provider for it
- Lenses available for most prescriptions (including progressives and multifocals)
- Orders fulfilled and shipped the following day – and it's free!
- All supported by the award-winning<sup>2</sup> photorealistic and geometrically accurate 3D virtual "try-on" technology
- Members can visit any LensCrafters around the country for adjustments

See how thousands of styles look from any angle
