

Carryover MaxSM puts your unused benefit dollars to work for you!

Carryover Max allows you to accumulate part of your unused benefit dollars from one year into future years. Carried-over benefit dollars increase your annual maximum and help pay for future covered services, such as bridges, crowns, and root canals.

It's easy to qualify.

Get your annual check-up.¹ That's it.

How Carryover Max works:

1. If you use less than half of your yearly benefit dollars, we'll take the difference between your annual maximum and what you actually used and multiply that by 25%.²
2. We'll add that amount to your next year's annual maximum to use for planned or unplanned expenses.
3. Unused yearly carryover funds will accumulate (capped at your standard annual maximum amount), so you don't lose them.
4. You can accumulate multiple years' carryovers (up to \$500 per year), potentially doubling your benefit dollars.

Here's an example of how Carryover Max is applied year over year.

	Year 1	Year 2	Year 3	Year 4
Your standard annual maximum amount	\$1,500	\$1,500	\$1,500	\$1,500
Carryover amount from previous year	N/A	\$275	\$500	\$400
Total benefit dollars available	\$1,500	\$1,775	\$2,000	\$1,900
Your total claims paid ³	\$400	\$600	\$1,600 ⁴	\$200
