* Deductible waived for preventive medications

Frequency: Retail provides a 30-day supply; mail order provides a 90-day supply. 

Mandatory Mail Order Program

Members are required to use mail order for maintenance medications.

Once the initial prescription and two refills are filled at the retail pharmacy (a total of three fills), the mail order program is mandatory for ongoing prescriptions. If the member does not transition to the mail order program after three refills, they will be responsible for **100% of the prescription cost**.

Mail order often provides a greater discount compared to the retail pharmacy. In addition to the savings, your prescriptions will be delivered right to your home.

How to Begin Using Mail Order

Complete a mail order form and send it to Express Scripts along with your prescription(s) written for a 90-day supply. For more information, call **800.698.3757** or visit [express-scripts.com](https://www.express-scripts.com).

Visit **BenePortal** for more information about your prescription plan benefits, including our Preferred Generics and Price Assure programs.

Specialty Drugs

Specialty drugs are medications that require special handling, administration, or monitoring. These are generally administered by injection.

Your provider will indicate if the medication you are being prescribed is considered a specialty medication. Specialty medications must be filled by the Express Scripts specialty pharmacy, **Accredo**.
